Insiders' Perspectives: Forgotten Refugee Resettlement Consensus and Motivation

Join us for an evening reception with drinks and light fare to mark the release of the Niskanen Center's newest paper with Professor Idean Salehyan on refugee resettlement. Professor Salehyan's discussion with James Purcell, former director of the Bureau for Refugee Programs (the precursor to PRM) under President Reagan, will focus on the past, present, and future of the program, as seen from the perspective of those on the inside of both Democratic and Republican administrations. Agenda to follow!
